MEMORANDUM FOR: Deputy Director of Central Intelligence

SUBJECT : Staff and Non-Staff Elements within the Clandestine Services.

1. The attached memorandum contains recommendations submitted for DDCI approval. Such recommendations are contained in paragraph 6.a.
2. As a result of your review of an analysis of the staffs of the Clandestine Services some time ago, you suggested that the names of some of the staff units might be changed to more accurately reflect their true status.
3. The attached Management Staff study indicates that there is a preponderance of "non-staff" functional responsibilities now assigned to these units. The Management Staff was not requested to study or make recommendations concerning organizational realignment, inasmuch as the DD/P area has such an internal study under way. The "staff" and "operational support" functions are identified as such in Tab (A).
4. The recommendations in paragraph 6.a. of the staff study can be implemented without much difficulty and would, I believe, accomplish your purpose. I concur in these recommendations except that I would prefer not to change the names of the four staffs involved pending the outcome of the DD/P organizational study. This is not necessary to identify a pure staff from operational support functions in our statistical reports.
